

# UPES, Aspire Circle to Launch RISE Centre for Research in Sustainability; Details Inside

 [Keep Me Notified](#)

*UPES RISE Centre will introduce a flagship programme in partnership with Mahindra University.*

UPES has announced the launch of the RISE (Research on Impact, Sustainability, and ESG) Centre in collaboration with Aspire Circle. The RISE initiative will be dedicated to advancing study and learning in sustainability and environmental, social, and governance (ESG) impact. The authorities will inaugurate the RISE Centre on September 21, 2024 in order to furnish current and prospective leaders with the understanding and aptitudes demanded to drive significant change in their communities.

Dr. Ram Sharma, Vice Chancellor of UPES, expressed his enthusiasm, stating, “At UPES, we are committed to being a hub for innovation and research, and the launch of the RISE Centre marks a significant step in this direction. The RISE Centre will drive impactful solutions for sustainability and ESG challenges, leading our efforts on climate change and sustainable development. We are excited to partner with Aspire Circle for the RISE Centre and Mahindra University for the Impact Specialist Programme (ISP), as we share a common vision of creating a future where economic growth is aligned with environmental responsibility. Together we aim to equip professionals with the skills to drive meaningful change in their organisations and communities.”

Sharing his delight, Amit Bhatia, Founder & CEO of Aspire Impact said, “We took 4+ years to put together this program, to prepare leaders for the imminent Impact Economy and future Chief Impact Officers. We believe that the Chief Impact Officers need their rightful place in the C-Suite, own the ESG, Sustainability & Impact agendas, own the NetZero transition, Carbon Neutrality targets and Circularity mission; and lead Risk-Return-Impact optimization for the company.”
