

Title	Project Date
Performance Evaluation of Fireproof Structural Steel Element	4/5/2023
Analysis of emerging contaminants in various lakes of Himalayan region focusing on remediation and treatment by using Biochar	4/5/2023
Development and Performance Assessment of Noise-Absorbing Materials Using Waste Protective Clothing and Face Mask	4/5/2023
Removal of Active Pharmaceutical Ingredients (APIs) using waste materials-synthesized biochar: A sustainable approach.	4/5/2023
Geotechnical Characterization of Lunar and Martian Regolith Simulants	4/5/2023
Determining the performance of Ground Granulated Blast Furnace slag based concrete using Rice husk ash	4/5/2023
To evaluate the performance of Flyash based Geopolymer concrete using Lime and Glass fibre for sustainable construction	4/5/2023
Structural safety of concrete bridges in uttarakhand region	4/5/2023
Assessment of Microplastic in surface groundwater bodies of industrial area Uttarakhand region	4/5/2023
Application of dripper plastic waste as a media in MBBR techniques for wastewater treatment	4/5/2023
Evaluation of Geopolymer clay interaction at the disposal zone	4/5/2023
Preparation of enriched and standardized 6-gingerol or unique combination of 6-gingerol green extract from natural sources.	4/10/2023
Cultivation of algae in sewage water for hydrocarbon fuels	4/10/2023

Kinetic studies of gas hydrate formation and dissociation for sustainable energy applications	4/10/2023
Development of environment friendly vegetable oil based drilling fluids for shale formations	4/10/2023
Experimental Investigations on Pyrolysis by using Pine needle as a feedstock.	4/10/2023
Development of a laboratory based model for demonstration of wax deposition in storage tanks and the application of wax inhibitors in Oil and Gas Industry	4/10/2023
Extraction of soluble protein from waste eggshell and its polymeric composites for bio-coating purposes	4/5/2023
Effective synthesis of reduced graphene oxides (rGO) and characterization to observe their photoluminescence and degradative effect on UV-Vis absorption of dyes via photocatalysis	4/5/2023
Photoredox catalysis using earth abundant first – row transition complexes as photosensitizers	4/5/2023
Effective Remediation of Environmental Hazards with Designed Reusable 'Magnetic Sponge'	4/5/2023
Design of broadband tunable Near-Infrared Luminescence Material	4/5/2023
Development of Pd-rGO composite based electrode for energy application	4/5/2023
TEMPORARY FILLING DENTAL CEMENT	4/5/2023
Research on role of pesticides and Plastic burning in causing cancer	4/5/2023
The neuroprotective effect of plant extract on valproic acid induced autistic features in zebrafish	4/5/2023
Screening and characterization of anti-microbial compounds from <i>Hermetia illuciens</i>	4/5/2023

Development and evaluation of natural bioactive loaded nanovesicles for treatment of atopic dermatitis	4/5/2023
Screening and characterization of novel biopesticides from <i>Hermetia illucens</i> (Black Soldier Fly, BSF)	4/5/2023
Development of monomodal CaCO ₃ porous microparticles for enhanced dissolution of poorly soluble drugs	4/5/2023
Study on the Purple Passion Fruit peel and its uses in preparing functional foods	4/5/2023
Development of a highly Selective Polymer based detection platform for <i>Helicobacter pylori</i> Outer Membrane Proteins	4/5/2023
Study of mutual interaction between multiple flexible foils	4/5/2023
Design and develop a Mini Turbojet engine (Gas Turbine)	4/5/2023
Characterizing Transmission Losses in Vibro-Acoustic Channels	4/5/2023
Development of Low Cost Multi Reflector 20" Newtonian Telescope	4/5/2023
Passive Descent System Based Atmospheric Deployable Mechanism	4/5/2023
Design, Development and Fabrication of Air injection facility for Rotary Disc Apparatus	4/5/2023
Development of Archimedes Screw Turbine Testing Facility	4/5/2023
Design, modelling and testing of 3D printed water turbines	4/5/2023
Design, development and testing of Hybrid TES solar dryer for agricultural use	4/5/2023

Design and Development of Drone with Launching System	4/5/2023
UAV Wing design for Short Take Off and Landing	4/5/2023
Design and Fabrication of Solar Operated Composting System	4/5/2023
Design and Development of a Light-Weight Ambush Drone	4/5/2023
Design, fabrication and testing of laminar flow elements	4/5/2023
THERMAL COMFORT: ANALYSIS AND OPTIMIZATION IN VEHICLES (HYBRID/ELECTRIC)	4/5/2023
Study of wing rock phenomenon of a delta wing and its control	4/5/2023
Design and development of swarm drones	4/5/2023
Design and Build an Oil Tank Inspection Robot – Part 1: Mechanical Module (OTIR-1)	4/5/2023
Experimental study of locomotion efficiency of a flexible body robotic fish.	4/5/2023
Development of novel technique for delaying the flow separation on airfoils.	4/5/2023
Design and Development of Self-Destructive Swarm Drones	4/5/2023
Design, Development and Testing of Rotating Launch Pad Prototype	4/5/2023
Amphibious UAV	4/5/2023

Studies on Graphene Application in Ballistic Helmets	4/5/2023
Design and Build an Oil Tank Inspection Robot – Part 2: Localization & Navigation Module (OTIR-2)	5/8/2023
Developing techniques for study of optimal body posture for individuals using IOT sensors and machine learning algorithms	4/5/2023
Cloud Based Automated Smart Parking System Using IoT	4/5/2023
System For Award Management	4/5/2023
Autonomous Forest fire Detection and Monitoring using Unmanned aerial vehicle (UAV).	4/5/2023
Point of care Malaria detection Microscope using AI & IoT.	4/5/2023
[Quadruped Robot] Walking-Locomotion technology which imitates the motion of Quadruped animals	4/5/2023
Design and Build an Oil Tank Inspection Robot	4/5/2023
Semi – automatic solid waste segregation system	4/5/2023
Field plan For Geological Survey in and around Joshimath	2/2/2023
Development of hyaluronic acid and sorafenib nanoformulation for anticancer drug delivery.	7/6/2023
Screening of anti-tumor activity in Black Soldier Fly (Hermetia illucens) larvae	7/6/2023
Screening of the anti inflammatory properties in the Black Soldier Fly (Hermetia illucens) larvae	7/6/2023

Screening of cardioprotective agents in Black Soldier Fly (<i>Hermetia illucens</i>) larvae	7/6/2023
"Compact and ergonomically designed assistive equipment (a chair) for elderly people during bathroom"	7/18/2023
An ergonomically design gaming controller for the Indian youth	7/18/2023
Smart Gestures With Smart Remote	7/18/2023
New Product - Physical Board Game	7/18/2023
Creation of an inexpensive Particle Image Velocimetry Setup for Velocity Profile Measurements in the wake of Airfoils	6/23/2022
Design and development of small-scale continuous reactor for the fast pyrolysis process.	6/23/2022
Atmospheric water generator	6/23/2022
Experimental Studies on the efficiency of mixed flow turbines and the effect of air injection.	6/23/2022
Underground debris robot	6/23/2022
Design & Development of UPES solar tree with automated lighting system using machine vision.	6/23/2022
Design, Development and Analysis of Vortex Inertial Motor for applications in anti-gravity flight.	6/23/2022
Multi purpose crushing machine	6/23/2022
A Sustainable system to integrate Mechanical and Animal Power for Agriculture sector.	6/23/2022

Design & Development of an affordable indoor air quality enhancer product	6/23/2022
Advancement in Perching Capabilities of UAVs with Leading Edge Protuberances.	6/23/2022
Developing a noise pollution app by conducting detailed research on perilous consequences and survey-based solutions	6/23/2022
Early kick detection to forecast the risk of disastrous oil well blowout	6/23/2022
To create application and website that help people to tackle their mental health problems	8/16/2022
Paper based analytical device for detection of heavy metals in water	8/16/2022
Bio-Briquettes: A cleaner fuel for cooking and space Heating (Aligned with Rural Technology Flagship Project)	8/16/2022
Advancement in Vacuum Pyrolysis	8/16/2022
Utilization of organic waste to make eco-friendly germinating pots	8/16/2022
Underwater Pipelines Surveillance through HydroRobotics	8/16/2022
Saksham / Communication solution for disabled	9/7/2022
Emotion Detection from Human Conversations with voice assistant using Artificial Intelligence	9/7/2022
A customized form generating platform with payments integration.	9/7/2022
Academic web and mobile applications for effective pedagogy, integrity, fair evaluations, and mentoring - time-efficient strategies for teachers	9/7/2022

In-situ prepared metal oxide and/or metal sulfide embedded 2D-layered materials for photocatalytic environmental remediation and sensing applications	6/23/2022
Photocatalytic Degradation of textile dye using Metal doped TiO ₂ nano catalyst	6/23/2022
Two- Stage Pyrolyzer for Fast pyrolysis process of Biomass and Plastic wastes	4/10/2024
Design and modelling Of Bio-inspired vibration isolator with experimental validation	4/10/2024
Design and development of a modified hot air balloon	4/10/2024
Development of an Electric Rover with Sensor-Based Control for Industrial Applications	4/10/2024
Synthesis and characterization of natural fibre reinforced polymer composite for non-structural applications	4/10/2024
Innovative Shielding Solutions for Spacecraft: Unleashing the Potential of High Entropy Alloy (Ni-W)	4/10/2024
Design and Fabrication of Sensor Controlled Integrated System for Ankle Exoskeleton	4/10/2024
Detection of cyanide ion using molecular photosensitizers	4/10/2024
Design and development of 4-wheel electric daily commuter - Electric longboard	4/10/2024
Nanoscale Metal-Organic Frameworks Utilizing Transition Metals for Targeted Detection and Remediation of Environmental Hazards	4/10/2024
Geotechnical Characterization of Lunar and Martian Regolith Simulants	4/10/2024
Investigation of new production routes of various radioisotopes used as radio pharmaceuticals in PET, SPET and TAT	4/10/2024

Design and Analysis of a Bio-inspired Solar Cell Stacking –Fibonacci Tessellated Floret Bed Design	4/10/2024
Parametric Assessment & Optimization of Variation in Surface Roughness on the Metallic Bipolar Plates of Proton Exchange Membrane Fuel Cell (PEMEC)	4/10/2024
Development of high endurance UAV for delivery purpose	4/10/2024
Sulphonated and Phosphonated multiwalled Carbon nanotube catalyst and its effect on PEM fuel cell performance	4/10/2024
Performance analysis of fuel cell with respect to various catalyst on anode and cathode	4/10/2024
Investigation of wind energy harvesting using flow-induced rotation of hinged plates	4/10/2024
Characterization of Graphene Reinforced Kevlar-based hybrid composites for vehicle armor applications.	4/10/2024
nanocomposite bone for Implants	4/10/2024
Development of Lightweight Hybrid UAV with Extended Flight Endurance	4/10/2024
Design and Fabrication of Smart Luggage cum E-scooter	4/10/2024
Utilization of forest biomass for the development of green adsorbent	4/10/2024
Performance characterization of Archimedes screw turbine	4/10/2024
Design, Development and Analysis of an Energy Harvesting System for Electric Vehicles using Occupant Seats Embedded with piezoelectric Sensors	4/10/2024
Design and development of Swarm drone system with Launcher Unit	4/10/2024

Integrated Solutions for Asphaltenes and Wax Deposition in crude oils/model oils: Novel Additives Approach	4/10/2024
Design and manufacturing of an emergency response drone with Integrating advanced Toroidal Propeller and Autonomous Landing Gear	4/10/2024
Development of Bio Inspired Ornithopter with Flapping Wings	4/10/2024
Design and Development of a Water Calibration Unit for fuel injectors.	4/10/2024
Design and Fabrication of a portable Incinerator for Medical application	4/10/2024
This project encompasses advancements in UAV aerodynamics and routing protocols, as well as the profound impact of AI on their capabilities.	4/10/2024
Design, Development and Testing of Extreme Cold weather Clothing System	4/10/2024
Investigation of heat-pipe/vapour chamber-based passive thermal management solutions for terrestrial and space applications	4/10/2024
Design and Development of an energy-efficient Bladeless wind turbine	4/10/2024
Design and thermal analysis of an optimized reversible air-cooled battery pack for a 1 kW system	4/10/2024
Design and Development of a 3D-Printed Robotic Arm with Intelligent Control	4/10/2024
Modelling Control and Analysis of Grid Connected PV System for Dynamic Loading	4/10/2024
Development of Gas Monitor	4/10/2024
Implementation of insect-inspired collision-avoidance strategy on a small unmanned aerial vehicle	4/10/2024

Assessment of microplastic & emerging contaminants in soil and water in and around municipal solid waste dumping sites on the foothill of Himalayan region with focus on	4/10/2024
Development of an Autonomous Drone for Agriculture	4/10/2024
Study and Experimentation on Effects of Electrohydrodynamic Thrust in Atmosphere using circular Emitter-Collector Grids	4/10/2024
UV Sanitizing Robot: Enhancing National Health and Safety Through IoT-driven Disinfection	4/10/2024
Autonomous mobile robot navigating in unknown environment: Mapping and Localisation.	4/10/2024
Screening of oral microbiota as a diagnostic tool for autism spectrum disorder	4/10/2024
The ameliorating effect of ethnobotanical plant <i>Abroma augusta</i> on testosterone induced PCOS in zebrafish	4/10/2024
Formulation of functional food from <i>Bombax ceiba</i>	4/10/2024
Design, synthesis & in-vitro studies of 7-chloroquinoline based metal complexes as DNA binding agents for anti-cancer activity	4/10/2024
Development of a small-scale eco-friendly benchtop black soldier fly (<i>Hermentia illucens</i>) breeding station	4/10/2024
Identification and validation of unique inflammatory-regulated polypeptides in black soldier fly larvae	4/10/2024
Screening of urinary miRNAs for the non-invasive early detection of bladder cancer	4/10/2024
Establishing <i>Drosophila</i> as a disease model for high sugar diet induced obesity.	4/10/2024
Investigating the impact of gut micro-biota on reproduction.	4/10/2024

Solubility and permeability enhancement of phytoconstituents for topical applications using nanoemulsion approach	4/10/2024
Investigating the Pathophysiology of Bacterial Metabolites on Neural Functioning in Zebrafish as a Model for Autism Spectrum Disorder (ASD)	4/10/2024
Comprehensive analysis of persistent pesticide residue degradation in contaminated soil	4/10/2024
Design and fabrication of electrochemical biosensor to detect acute lymphoblastic leukemia	4/10/2024
Screening of the natural products database at the Switch-I/II interface pocket of KRASG12D for the identification of novel KRASG12D inhibitors for the potential treatment of cancer	4/10/2024
Identification of novel non-covalent KRASG12C inhibitors as potential cancer therapeutics	4/10/2024
Development of crackers using Foxtail millet, Proso millet and Halim seeds	4/10/2024
Bioprospecting ethnic fermented food of Uttarakhand for probiotic bacteria.	4/10/2024
Study on newly discovered Teazeled Receptors and their possible role in bacterial competence and metal resistance	4/10/2024
Isolation, Screening and characterisation of Himalayan Trichoderma strains to develop multi-purpose microbial consortium for sustainable agriculture	4/10/2024
Development of modified finger millet starch film incorporated with lemongrass essential oil and its characterization study	4/10/2024
Effects of different drying techniques on quality characteristics and aroma profile of the grapefruit peel.	4/10/2024
From lab to table: Revolutionizing the fish and poultry meat safeguarding through anti-adhesive properties of biosurfactants	4/10/2024
Genomic Insights For Early Oral Cancer Detection through Saliva Analysis	4/10/2024

Development of skin-on-chip model and study of antibacterial efficacy of nano-inspired wound dressings towards inhibiting disease progression	4/10/2024
Optimization of DES assisted green extraction of bioactive from plant material	4/10/2024
Design and Evaluation of Gelatin-Based Nanocarriers for Improved Drug Delivery	4/10/2024
Development of a paper-based point of care(POC) device for the quantification of C-reactive protein	4/10/2024
DEHRADUN MEMORY PROJECT	4/10/2024
Design and Development of Vertical Farming System	4/10/2024
Analysis of real time solar irradiance for Dehradun region by using filed data devices	4/10/2024
Development of hybrid scooter/Two wheeler	4/10/2024
Design and development of 3 degree of freedom robotic arm	4/10/2024
Development and Testing of Weather Ballon	4/10/2024
Development of promising flame-retardant to enhance cotton safety.	4/10/2024
RECYCLING of wastepaper to create Handmade paper and UPCYCLING of handmade paper	4/10/2024
